## Solar Powered Welding Helmets Shade 9 - 13

- High quality infinitely variable shade 9-13 lens manufactured and tested to BSEN379.
- Featuring grinding function which enables the user to grind without having to remove the mask, offering full face protection.
- Fully automatic, switches from light to dark on striking arc.
- Fitted with solar power panel - no batteries required.
- Features sensitivity switch and delay speed switch control for switching dark to light, preventing arc eye when welding at high power, whilst still providing fast switching for tack welding.
- Deluxe contoured helmet design approved to BSEN175 gives full neck protection and protects lens from scratching when helmet is laid down.
- Comfortable headband and non-slip quick-release ratchet mechanism.
- Suitable for MIG, TIG, arc welding and grinding.
